

Welcome to Second Grade

WELCOME!

We are so excited to have you join us for this upcoming 2023-2024 school year! This year we look forward to growing our students' brains through challenging, fun, and engaging learning experiences. We will continue building on the skills that they've learned in 1st grade and prepare them for 3rd grade. We will learn how to be good friends through the use of our school-wide weekly EQ, as well as how to become great problem solvers/critical thinkers. We will play learning games and enjoy being with our friends. We look forward to creating a school to home connection throughout the school year. We are so excited to welcome our brand new incoming 2nd graders. It's going to be a fantastic year!

MEET THE TEACHERS

Mrs. Cisneros

Mrs. Okenwa

Ms. Wills

TEACHER COMMUNICATION

We communicate primarily through the use of Class Dojo. It is a free app that is available for [download](#) on most phones. You will be able to connect directly with your student's teacher in July.

Please encourage your student to practice their skills throughout the summer so we can start the year strong!
