*The National Science Foundation (NSF) funding dictates that student stipends can only be awarded to qualifying underrepresented students (URM), only members of Hispanic, African American, Native American, and Pacific Islander/Alaska Native ethnic/racial groups. The NSF does NOT consider Asian-Americans or Anglo women or men to be underrepresented as part of its funding guidelines for this program. Non URM applications will be considered and non URM students are welcome to apply, however, they will be required to cover all program costs, including tuition and fees.
