6th - Mrs. Stewart-making wands while eating nothing.

THE MOST FAMOUS PERSON IN AMERICAN HISTORY

By: Jason Myers

George Washington

was the first president of the United States. His presidential term lasted from 1759 to 1799.

George was born on February 22nd, 1732 and he died on December 14th, 1799.

Mr. Washington led the Continental Army in 1775.

George and his wife Martha had no children. They did, however, raise Martha's two surviving children, a girl named Patsy, who died as a teenager of epilepsy. Martha's son, Jackie Custis, came from college to comfort his mother Martha.

George was a founding father of our country and a great president.

STUDENT INTERVIEWS

What is your favorite color?

By: Christopher Thomas and Aubrey Buksar

K - Mrs. J. Stewart's class: Whitley-pink

Donivan-all of them

1st - Mrs. Mitchel's class:

Owen-red

Halle-blue-green

2nd - Ms. Hurtado's class:

Arturo-dark red

Lareen-pink

3rd - Mrs. Comeau's class:

Xsavion-blue

Shylah-pink

4th - Mr. Miller's class:

Deidamia-teal

Brayden-black

5th - Mrs. Sindelar's class:

Jayden-blue

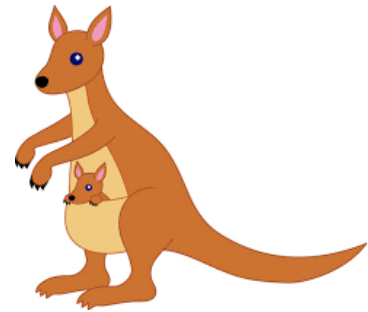

Amori -purple

6th -Mr. Bolton's class:

Marquis-red

Lilianna-pink

ANIMAL OF THE MONTH - KANGAROOS

By: Xavier Escontrias

Kangaroos possess powerful hind legs. Kangaroos can leap 30 feet in a single bound and some stand over six feet tall. Kangaroos can reach the speeds of 30 miles per hour.

Kangaroos use their strong tail for balance while jumping.

Kangaroos live in eastern Australia. So, overall,

Arrowhead Panther Press

Volume XIX

August, 2017

issue No. 1

Kangaroos are very powerful animals and live in the heat of eastern Australia.

MARINE LIFE – THE BLOB FISH

By: Teagan Bradford

The blob fish is a strange creature you would find in the ocean. It doesn't move much and is known for being one of the laziest animals in the sea.

It was named *the blob fish* because it resembles a big pink blob that doesn't move and doesn't hunt. Instead, it sits and waits.

Eventually, a small piece of food will drift down and it will catch it with his mouth. It will eat mostly anything that comes. I believe that though it is lazy and ugly, the blob fish is amazing.

BIRTHSTONE OF THE MONTH

By: Brendan Suh

The birthstone of August does not only have one birthstone but two. The first is Peridot, a gem-quality

olivine, which is a magnesium-rich variety of

olivine.

The second is called Sardonyx. Sardonyx combines alternating layers of sard and onyx, two types of layered minerals to create a reddish zebra-striped stone with bands.

CELEBRITY BIRTHDAYS

By: Nadia Gonzalez

Barack Obama- Aug.4 - 54 years old.

Jennifer Lawrence - Aug.15 - 26 years old

China Anne McClain - Aug 25 18 years old.

BOOK OF THE MONTH

By: Allie Jeffords

This review is about the third installment of the *Harry Potter* series. Of course, it includes the trio Harry, Ron, and Hermione as they do their best to prove Sirius Black, Harry's godfather, innocent. Though they do have a few bumps in the road they eventually work together in order to save Buckbeak, Cahippogriff, and Sirius.

To be honest, I loved this book and even if you're not a fan of *Harry Potter*, which many people are, I still highly recommend this book!

WHAT'S GOING ON IN SPECIALS

By: Aaron Nemeth

ART:

Kinder- painting birds with primary colors and secondary colors
