

Our classroom welcomes parent volunteers. If you are interested in volunteering, please know that you must go through the district's volunteer training. If you have already attended the training in years past you do not need to do it again. However, you will need to update your volunteer information with the office each school year. If you have not attended, please let us know once you do, so you may help out in our classroom or attend field trips. All parents who attend field trips have to go through the training as well.

Training lasts approximately one hour and 10 minutes and registration is not required. All training sessions are open to everyone.

Please check with the office for upcoming dates.
