Seasons Model

On the Back of this paper, you will draw a color model of the Earth in its orbit at all 4 seasons. This means you will draw 4 Earths in your diagram.

Must explain/label/include all of the following:

- The Sun
- Earth’s “elliptical” orbit
  - Is the Sun in the “middle”?  
- Which is which? Using arrows, indicate direction of Earth’s:
  - Rotation
  - Revolution  
- The tilt and degree of Earth
- The seasons in both hemispheres for all 4 Earth drawings
- Explain the concentration of Sun (direct/indirect) for each hemisphere for all 4 Earths
