

Top 20 at Legend Springs!

The mission statement at Legend Springs was currently updated to read, ***“We work as a team to encourage personal integrity, intellectual curiosity and human kindness.”***

In order to encourage integrity, curiosity and kindness, we believe teaching Emotional Intelligence or EQ (Emotional Quotient) is just as important as teaching Intelligence Quotient (IQ). At Legend Springs we use the Top 20 Program to to instruct students as they develop strong emotional intelligence. Top 20 encourages students to be more than book smart, it helps students make smart personal decisions and teaches students how to interact with others in a positive and supportive way. We call this helping students stay "Above the Line."

Top 20 puts a focus on developing good habits in (TLC) Thinking, Learning and Communicating! Our students will learn strategies for staying "Above the Line" so they can reach their maximum potential in all areas of their life.

Each month, beginning in October, all students in K-6 will have a focus topic each month for learning about emotional intelligence and we build healthy habits in TLC (Thinking, Learning and Communicating). Here is a list of monthly themes that your student will be learning about through the Top 20 Program.

October: Creating a Culture of Learning

November: The Line

December: Mistakes

January: The Frame

February: EQ and Star Qualities

March: Other People's Opinions

April: Eliminating Negativity

May: Conflict Resolution
