

“What you know matters, but who you are matters more.” Brene Brown

TOP 20 AT LEGEND SPRINGS!

Top 20 works to use teachable moments to instruct students as they develop strong emotional intelligence. Top 20 encourages students to be more than book smart, it helps students make smart personal decisions and teaches students how to interact with others in a positive and supportive way. We call this helping students stay "Above the Line."

Top 20 puts a focus on developing good habits in (TLC) Thinking, Learning and Communicating! Our students will learn strategies for staying "Above the Line" so they can reach their maximum potential in all areas of their life. Students will learn what it means to Keep Their Day so they are able to navigate through life in a productive manner when conflict and misunderstanding occur. Students will also learn about the four main jobs to create and sustain a healthy school culture; We Help Each Other Succeed, We Communicate You Matter, We Honor the Absent and We See the Problem, We Fix the Problem. Parents, if you would like to review the Top 20 concepts that we will be reviewing with students throughout the school year.

Top 20 Semester 2 Focus - [Click Here](#)

Top 20 will give students these valuable skills:

- ***Students will become aware of their thinking and how it governs their own experience.***
- ***Students will learn how to resolve conflict and make things better .***
- ***Students will learn how to develop Star Qualities (people-smarts, self-motivation, confidence)***
- ***Students learn now to reduce negativity. Instead, students learn empowering messages.***
- ***Top 20 helps to encourage students to move outside of their comfort zone and learn from mistakes.***

“The Top 20 program is a fabulous set of tools, words and ideas that teach students, parents and people of all ages how to grow relationally, find inner balance, grow in self-esteem and lead satisfying lives. All education, in my opinion, begins here and no amount of reading, writing and arithmetic could take its place. I strongly endorse and recommend this program.” -Glen and Patricia Dolan, Parents
