We're proud to announce the release of AAPPL 2.0 — updated and redesigned based on your feedback.

We just took the AAPPL to a whole new level.

AAPPL 2.0 • AVAILABLE MARCH 2019
ABOUT AAPPL

The ACTFL Assessment of Performance toward Proficiency in Languages (AAPPL) is unlike any other assessment. The AAPPL is a proficiency and performance assessment that addresses the World-Readiness Standards for Learning Languages. It uses today’s communication media as the context in which test-takers perform tasks such as participating in a virtual video chat, creating wikis, and writing email messages to demonstrate language ability.
The AAPPL has two test forms for middle school- and high school-aged learners:

**Form A** addresses Novice and Intermediate Levels.

**Form B** addresses Intermediate to Advanced-Low.

For each modality, in each test form, there are:

- 3 tasks at one level
- 3 tasks at the next higher level
Here are the exciting enhancements coming your way...

Tablet and Chromebook-friendly HTML5 (instead of Flash)

- Increased browser compatibility
  - Improved experience on Chromebook
  - Works with iOS devices
- A cleaner, clearer design for a more intuitive, modern, and contemporary feel.
- New Form B for 5th - 8th grades to assess Intermediate to Advanced-Low
- New videos and audio
Start-to-finish Accessibility

The integration of accessibility into the AAPPL Online Delivery and Item Development Process ensures ADA/WCAG 2.0/Section 508 compliance, including:

- Custom color schemes
- Adjustable fonts
- Magnification
- Screen reader compatibility
- Keyboard navigation
- Subtitling for videos
- Time extension for timed prompts (recordings)
- Accommodations available for students with a documented need noted in an IEP or 504 plan.

New Report Features

- Data reporting system that allows for customized student-centric and teacher-centric score reports within schools, across districts, and across program types for national outcomes.
- Printer-friendly Score Report design to match the new look and feel of AAPPL 2.0.
ACTFL presents a new web-based tool that allows teachers to provide language learners with extended opportunities to practice listening and speaking.

The AAPPL Conversation Builder is an excellent tool to prepare students for the ACTFL Assessment of Performance Towards Proficiency in Languages (AAPPL), designed to effectively complement lesson plans and curriculum. Teachers are able to choose the subject matter, language, and targeted proficiency level to suit their students’ needs, and can then either search for and/or produce original tasks.

Teachers are able to add text to their activities in the Conversation Builder tool, allowing them to create activities similar to those found on the Presentational Writing (PW) and Interpretive Reading (IR) sections of the AAPPL assessment. Students are also able to respond to those activities via written text.
**AAPPL 2.0**

**ACTFL Rating Scale and Crosswalk with AAPPL ratings**

Each task is aligned with a level of language proficiency: **Novice, Intermediate, or Advanced**
