

Desert Sage Fourth Grade

Mandarin Learning in Action

Reading: This week we are reading an informational letter and learning to recognize characteristics of letters and determine the ideas and supports the author presents.

Writing: We are beginning a research report about an endangered plant or animal.

Social Studies: We are learning about the triangular trade and how slavery and trade were used to benefit the colonies.

Science: We will learn the differences between renewable and non-renewable energy sources and categorize the resources appropriately.

Math: We will be starting module 2 topic A. In topic A, students review place value concepts while building fluency with decomposing, or converting from larger to smaller units.

Mandarin: This week we will review learned key vocabularies, phrases and sentences for a complete conversation between the customer and the seller. On Wednesday and Thursday, we will have a classroom market to practice our conversational skills.
