

Student and Parent Expectations During Home Quarantine

Students sent home from school ill by the nurse, had a direct exposure to COVID-19 and are being required to quarantine will resume instruction online.

Students

- Follow the regular DVHS A/B block schedule and bell schedule
- Attend Zoom Classes using your teachers zoom link in Canvas
- Turn in your work via Canvas and any other teacher assigned work
- Communicate your needs through Zoom Chat or teacher emails

Parents

- If your student is ill and is unable to participate in their scheduled Zoom class or classes, please call the attendance line to excuse the absence, 602-467-6790. If a student does not attend Zoom class they will be marked absent. This is a requirement for state attendance reporting purposes.

Students who are sent home ill from the nurse must stay home for **10 days** or obtain a negative COVID-19 Test. Test results must be brought to the nurse before or on the day the student returns to school. Students who have been in close contact with a positive COVID-19 person must quarantine for a mandatory **14 days**.

If you develop any symptoms consistent with COVID-19¹ during the 14-day monitoring period, you should:

- 1) **Get tested for COVID-19** with a PCR or antigen test (swab test) at a healthcare facility or other testing site.
- 2) If you **do not get tested**, are **waiting for your test results OR test positive for COVID-19**, you should isolate at home until:
 - At least 10 days have passed since your symptoms first started **and**
 - At least 24 hours have passed since your fever resolved (without the use of medication) **and**
 - Your other symptoms have improved.
- 3) If you **do not get tested**, are **waiting for your test results OR test positive for COVID-19 AND** are admitted to the **Intensive Care Unit (ICU) OR** you are **severely immunocompromised²**, you should isolate until:
 - At least 20 days have passed since your symptoms first started **and**
 - At least 24 hours have passed since your fever resolved (without the use of medication) **and**
 - Your other symptoms have improved.
- 4) If you **test negative for COVID-19**, you should isolate at home until:
 - At least 14 days have passed since your last exposure to the person with COVID-19 **and**
 - At least 24 hours have passed since your fever resolved (without the use of medication) **and**
 - Your other symptoms have improved.
