

Note from the Nurse's Nook

Hello, Parents/Guardians!

This is a gentle reminder that your child needs their 11year Immunizations, **Tdap and Meningitis, when they TURN 11years old and NOT when they are in the 6th grade.**

These immunizations are required by the State of Arizona. You have 10 days after your child turns 11years to submit the record of the immunizations being completed to the nurse's office.

If your child's birthday is in March, April or May, it is not too early to make their 11year wellness check-up appointment. As soon as you make that appointment PLEASE call or email me the date, so that you won't have to receive numerous reminder letters and repeated phone calls from me.

If I don't receive the required immunizations your child will be given a "No-Immunization-No-School" date.

Keeping your child's required vaccines up-to-date is one way to insure your child's good health.

Thank you so much for your help, patience and understanding!

Nurse Jan
