"I quite enjoy this class because I like making art, but I'm awful at drawing, so things like Photoshop really help me. 10/10 would recommend."

"This class showed me how to express my creativity in new ways using the Illustrator and Photoshop."

"I like how graphic design is very hands on. Also I like the creative ideas I get every single day."

"The things I love the most about graphic design is how we get the chance to use new technology to create intricate designs, enhance our artistic and creative skills. I also like it because we can create a good portfolio to show for future employment and commission opportunities."
