

Instructions for downloading the Canvas App

Go to the app store on your phone and do a search of Canvas.

The correct app will have an icon that looks like this:

Student App

Parent App

Download the app. It is free for both parents and students.

When you open the app, it will ask for the school the student attends. Start typing Deer Valley Unified School District and this selection should pop up.

You will then be prompted to use the student's school log in to sign in.

You should be all set.
